

Assumptions:-

- Every Sunbird Adopter will have an engineering team supporting its implementation and issue resolution
- Every Sunbird Adopter will take up the issue related to other Building Blocks with the respective BB on its own
- All the Building Blocks will continue to support the DIKSHA Adoption in the same way as it is being done currently till there is a DIKSHA engineering team in place
- For Diksha, the Production P1, P2 definitions run as is till DIKSHA Engineering Team is in place
- P1 Definition (Fix to be provided ASAP)
 - Security breach such as Log4js issue
 - Version compatibility/Backward Compatibility issues such as certificate has moved to RC but older certificates are not working properly
 - Build Breaks, Regression issues?
- P2 Definition: (Fix to be provided in immediate next release)
 - Breakage in a major feature used by the majority of our users,
 - Issue blocking a strategic partner.
